- 1 → C (In the park)
- 2 → B (Sandwiches, fruit, and lemonade)
- 3 → A (Frisbee)

Teacher's Guide & Notes

- **Purpose:** This worksheet integrates **fluency practice** (timed reading) with **direct text-based comprehension**, teaching students to quickly locate answers in the passage.
- **Implementation:**
 1. Students read each passage aloud in 1 minute.
 2. Immediately after, they complete the Question-Answer Match in under 45 seconds.
 3. Encourage accuracy by having them highlight or point to the sentence where the answer appears.
- **Differentiation:**
 - Struggling readers: reduce the number of questions to two.
 - Advanced readers: extend the task by having them **write their own question** for a classmate to answer.
- **Extension Idea:** Turn this into a **partner activity**: one student reads aloud, while the other answers and explains where they found the information. Then they switch roles.
- **Fluency Tip:** Point out that strong fluency supports stronger comprehension. Reading smoothly helps students remember details for quick retrieval.
