

Name _____

Choose the Best Fix - Training AI the Right Way Answer Key

Scenario A: Photo Classifier

- **Best Fix: B** → "That's wrong. This is a cat."
- **Why?** This provides the correct label. Option A is too vague, and C is harmful because it praises the mistake.

Scenario B: Self-Driving Car

- **Best Fix: A** → "That was wrong. You must stop at stop signs."
- **Why?** This gives both correction and a rule. Option B is harmful because it confirms the error, and C is too vague.

Scenario C: Voice Assistant

- **Best Fix: A** → "That's wrong. Play *Firework* by Katy Perry, not *Fireworks* by someone else."
- **Why?** It specifies both the correct title and artist. Option B is vague, and C is harmful because it reinforces the error.
