## The Robot Who Flunked Science Class

Read each "fact" the AI wrote. Some parts sound smart... but they're totally wrong! **Underline the incorrect part** and **choose the correct scientific fact** from the options below each one.

**1. AI said: Humans breathe in carbon dioxide and breathe out oxygen.**

- A. True
- B. False - Humans only breathe water vapor.
- C. False - Humans breathe in oxygen and exhale carbon dioxide.

**2. AI said: Ice melts because it gets colder when the Sun shines on it.**

- A. True
- B. False - Ice melts because it gets warmer from the Sun's energy.
- C. False - Ice melts because it wants to turn into rain.

**3. AI said: The Moon makes its own light at night.**

- A. True
- B. False - The Moon reflects light from the Sun.
- C. False - The Moon glows because it's covered in fireflies.

**4. AI said: Plants eat dirt through their roots to grow.**

- A. True
- B. False - Plants survive on pizza crumbs and sunlight.
- C. False - Plants absorb water and nutrients from soil, not dirt chunks.

**5. AI said: Electricity flows through wires because the wind pushes it.**

- A. True
- B. False - Electricity is made of air currents.
- C. False - Electricity flows because of moving electrons in the wire.

**6. AI said: Volcanoes erupt because the Earth sneezes out lava.**

- A. True
- B. False - Volcanoes erupt when magma pressure builds up under the surface.
- C. False - Volcanoes are angry mountains.

**7. AI said: Sound travels faster than light.**

- A. True
- B. False - Neither sound nor light move at all.
- C. False - Light travels much faster than sound.
