## AI Caption Catastrophe

Sometimes, AIs try to describe pictures-but they don't *quite* understand what they're seeing. Your mission: **read the AI's wrong caption, look carefully at the image, and write what's really happening.** Then explain what the AI got wrong and why its caption doesn't make sense.

1. AI's Caption: *A pig flying a colorful kite in the park.*

Your Task: What's really happening? \_\_\_\_\_

3. AI's Caption: *A robot balancing teacups on its nose while juggling flowers.*

Your Task: What's really happening? \_\_\_\_\_

What did the AI get wrong? \_\_\_\_\_

4. AI's Caption: *A friendly frog wearing sunglasses and dancing at the beach.*

Your Task: What's really happening? \_\_\_\_\_
