Rewriting Prompts Like a Roleplay Master

A plain prompt like *"Describe a storm"* is boring, but if you rewrite it with style, the AI will change its whole voice. Your challenge: read the plain prompts below, then rewrite them so an AI would answer as a **Secret Agent, Zombie, Samurai, or another roleplay voice you choose**. Be creative, but stay true to the style.

Example - Plain Prompt: "Describe a storm."

Secret Agent Rewrite: *"Brief the Director on last night's storm as if it were a covert enemy operation."*

Zombie Rewrite: *"Groooan... tell me about the storm, how it smell, how it taste, how it hides fresh brains."*

Samurai Rewrite: *"Honor demands you recount the fury of the storm as though it were a duel with the heavens."*
