# Analogies with AI

Analogies compare two different things to show how they are alike.
Example: *Algorithm is to recipe as instructions are to cook.*

Complete the analogies below:

1. Algorithm is to recipe as _____ is to cook.

2. Bias is to unfairness as _____ is to fairness.

3. Data is to fuel as car is to _____.

4. Neural network is to brain as _____ is to human.

5. Training is to athlete as machine learning is to _____.

6. Accuracy is to target as arrow is to _____.

7. Ethics is to rules as compass is to _____.

8. Privacy is to locked door as personal data is to _____.

9. Chatbot is to conversation as calculator is to _____.

10. Innovation is to invention as upgrade is to _____.

11. Supervised learning is to teacher as unsupervised learning is to _____.

12. AI is to assistant as hammer is to _____.
