Teacher's Guide

Skill Focus: Encourages learners to recognize social boundaries and practice adapting their behavior for different community settings like stores, theaters, and parks.

Differentiation Tips:

- Read each item aloud and discuss the setting to support comprehension.
- Provide visual symbols for each label (A, NI, IN) for nonreaders or emerging readers.
- Pair students to talk through reasoning before writing answers.

Engagement Ideas:

- Act out a few examples and have peers label each behavior together.
- Discuss why context (noise level, setting rules, personal space) affects whether behavior is appropriate.

Extension Ideas:

- Have students create one new scenario for each label type (A, NI, IN).
- Ask students to make a short "Community Code of Conduct" poster using their own examples of respectful public behavior.
