

Name _____

Science Totals Answer Key

1. $2.35 + 3.45 = 5.80$ cm
2. $1.80 + 1.95 = 3.75$ cm
3. $2.70 + 4.10 = 6.80$ cm
4. $2.35 + 1.80 + 1.95 = 6.10$ cm
5. $3.45 + 2.70 + 4.10 = 10.25$ cm
6. Plant A + D = 5.05 cm
Plant B + F = 5.90 cm
Greater: Plant B + F
7. $3.45 + 1.95 = 5.40$ cm
8. $2.35 + 1.80 + 3.45 + 2.70 + 1.95 + 4.10 = 16.35$ cm

Teacher's Guide

- Review how to read values from a data table before students begin.
- Encourage students to highlight or underline the values they need before adding.
- Remind students to line up decimal points when adding three or more decimals.
- Provide place value charts or graph paper for students who need support organizing their work.
- Have students explain how they located the correct data before solving each problem.
- Extend the lesson by having students create a small data table with decimal values and write three addition questions for a classmate.
