

Name _____

Decimal Checkup

Directions: Complete each problem. Show your work when needed.

1. Compute

$$4.58 + 2.37 = \underline{\hspace{2cm}}$$

2. Estimate

Round to the nearest whole number, then estimate.

$$7.42 + 3.81 \approx \underline{\hspace{2cm}}$$

3. Find the Mistake

A student solved this problem:

$$5:46 + 2.38 = 7.74$$

What is the mistake?

Correct answer: _____

4. Missing Addend

$$\underline{\hspace{2cm}} + 4.75 = 9.30$$

Missing addend: _____

5. Shopping

A notebook costs \$3.45 and a pack of pens costs \$2.80. What is the total cost?

Answer: \$_____

6. Measurement

A rope is 2.65 m long. Another rope is 1.48 m long. What is the total length?

Answer: _____ m

7. Word Problem

Lena walked 1.75 km in the morning and 2.60 km in the afternoon. How far did she walk altogether?

Answer: _____ km

8. Challenge

Write a decimal addition equation with a sum of 10.00.
