

Everyday Fractions Answer Key

1. $\frac{3}{4}$ cup
2. $\frac{5}{6}$ mile
3. $\frac{7}{8}$ teaspoon
4. $\frac{9}{10}$ of the bed
5. $\frac{17}{18}$ hour
6. $\frac{5}{8}$ meter
7. $\frac{7}{9}$ of the book
8. $\frac{9}{10}$ mile

Teacher's Guide

- Review how to find the least common denominator before students begin solving.
- Encourage students to underline the numbers and units in each word problem.
- Remind students to simplify their answers and include the correct unit when appropriate.
- Provide fraction strips or visual models for students who need additional support.
- Have students explain to a partner why they chose addition before solving each problem.
- Challenge advanced students to write a new one-step fraction addition word problem using unlike denominators.
- Extend the lesson by asking students to illustrate one of the problems with a diagram or model to represent the fractions visually.
