

Name _____

Mapping Aeneas's Path

Instructions: Below are ten important events from *The Aeneid*. They have been scrambled out of order, like pieces of a broken map. Your task is to **reconstruct Aeneas's journey** by placing them in the correct chronological sequence (1-10). Write the correct number (1 for first, 10 for last) next to each event.

- _____ A. Aeneas arrives in Carthage and falls in love with Queen Dido.
- _____ B. The Trojan hero carries his father Anchises out of the burning city of Troy.
- _____ C. Aeneas descends into the underworld with the Sibyl of Cumae to learn Rome's destiny.
- _____ D. The Trojans are shipwrecked by a storm sent by Juno and find safety in Carthage.
- _____ E. Aeneas and the Trojans hold funeral games in Sicily to honor Anchises.
- _____ F. The gods send Mercury to remind Aeneas of his fate, leading him to leave Dido.
- _____ G. War breaks out in Italy when Turnus resists Aeneas's destined marriage to Lavinia.
- _____ H. Aeneas and his people land in Latium, where King Latinus offers his daughter Lavinia in marriage.
- _____ I. The epic concludes with Aeneas defeating Turnus in single combat.
- _____ J. Aeneas and his companions wander after fleeing Troy, visiting places like Thrace and Crete.
