

Name _____

Landmark Hunt Answer Key

1. Sahara
2. Nile River
3. Kilimanjaro
4. Victoria Falls
5. Table Mountain

Teacher Guide

- This worksheet introduces younger students to some of Africa's most famous natural landmarks.
- Review the terms in the word bank before students begin to ensure they can pronounce and recognize each landmark.
- For grades 3 to 5, connect each landmark to a map or globe to help students visualize where it is located.
- Support struggling learners by reading each sentence aloud and emphasizing clue words such as desert, mountain, or waterfall.
- For engagement, allow students to choose one landmark and draw a quick sketch with labels.
- For differentiation, narrow the word bank to three choices for students who need extra help or provide simple picture cues.
- For extension, have students write two facts about one of the landmarks and share with a partner or the class.
