| 2. explorer | 7. route |
| 3. colony | 8. voyage |
| 4. compass | 9. trade |
| 5. navigation | 10. crew |

Teacher's Guide

- **Purpose:** Strengthens **vocabulary development** and **historical understanding** of key Age of Exploration terms while reinforcing context-based word recognition and meaning-building skills.
- **Differentiation Tips:**
 - Pre-teach vocabulary using visual aids or sentence examples for emerging readers.
 - Challenge advanced students to write their own sentences using each term correctly.
 - For struggling students, reduce the word bank to five choices per set.
- **Engagement Ideas:**
 - Create a "Word Wall of Exploration" where students draw simple illustrations to match each word.
 - Play a "Sailor's Dictionary" game-students act out or describe the meaning of the word for others to guess.
- **Extension Activities:**
 - Have students use five of the words to write a short paragraph about an imaginary sea voyage.
 - Encourage them to compare old exploration words to modern equivalents (e.g., voyage vs. space mission).
