Teacher's Guide:

- **Skill Focus:** Develops understanding of when to use **all** for groups or plural nouns and **whole** for single, complete items in extended context.
- **Differentiation Tips:**
 - Offer color-coded examples of *all* vs. *whole* before reading.
 - Allow struggling learners to highlight determiners first before correcting them.
- **Engagement Idea:** Turn this into a mystery activity. Students act as "grammar detectives" marking errors with red pens and presenting their "case" to the class.
- **Extension Activity:** Have students write their own short paragraph (5-7 sentences) including at least five correct uses of *all* and *whole*, then exchange with a partner for peer review.
