

Name _____

Replacing All Or Whole Answer Key

1. She drank the whole glass of milk in one gulp.
2. The teacher gave homework to all of the students.
3. I watched the whole movie twice because it was so funny.
4. We spent all our energy climbing that mountain.
5. My dog ate all of his food before I could blink.
6. They painted the whole wall blue to match the new furniture.
7. The whole team practiced for hours before the big game.
8. I looked at all of the pictures from our vacation.
9. The whole cake was gone before anyone else got a slice.
10. She cleaned the whole kitchen after breakfast.

Teacher's Guide:

- **Skill Focus:** Strengthens understanding of when to use **all** (for groups, amounts, and plural nouns) versus **whole** (for single, complete items).
- **Differentiation Tips:**
 - For support, provide a mini anchor chart with examples (e.g., "all the apples" vs. "the whole apple").
 - For enrichment, challenge advanced learners to explain *why* each correction works grammatically.
- **Engagement Idea:** Turn it into a "Grammar Detective" game where students find and fix each error in pairs or small groups.
- **Extension Activity:** Have students create five new sentences with intentional errors using *all* and *whole*, then swap with a partner to correct.
