## Bridge The Pair Answer Key

- |          |           |
|----------|-----------|
| 1. Puppy | 6. Cold   |
| 2. Petal | 7. Paint  |
| 3. Night | 8. Cow    |
| 4. Swim  | 9. Hand   |
| 5. Night | 10. Water |

### Teacher's Guide

- **Differentiation Tips:**
  - For younger students, read the pairs aloud and model the pattern:  
"A cat's baby is a kitten. A dog's baby is a...?"
- **Extension Activities:**
  - Have older students create their own analogies based on things in the classroom or nature (e.g., "Book : Library :: Star : Sky").
  - Use the analogies for vocabulary journaling: students define the key relationship word and illustrate it.
- **Skill Focus:** Builds understanding of **relationships between words**, **logical reasoning**, and **vocabulary connections**, helping students improve both **word meaning comprehension** and **critical thinking** in reading.
