

Name _____

If Snowball Stayed

Directions: In *Animal Farm*, Napoleon drives Snowball away with the dogs. Imagine this event happens differently: **Snowball stays on the farm and continues to lead alongside (or against) Napoleon.** Write at least **three cause-and-effect predictions** about how this change would impact the story. Be specific: think about the **windmill, the commandments, Boxer, and the farm's future.**

Changed Event: Snowball Stays	Cause (What happens because Snowball stays)	Effect (The larger outcome for the farm)
Example: Snowball continues his windmill project.	Animals put more energy into technology and education.	The farm may modernize more quickly and improve living conditions.
