

Arctic Allies Answer Key

1. C
2. A
3. D
4. E
5. B

Teacher's Guide

Purpose: Supports Grades 3 to 8 by helping students understand how Antarctic animals survive harsh climates through behavioral and physical adaptations.

Differentiation Tips

- Provide short descriptions or images of each animal for students who need extra support.
- Allow students to discuss in pairs before choosing answers.
- Challenge advanced learners to explain why each adaptation is important for survival.

Engagement Ideas

- Begin with a quick warm up where students guess how animals stay warm without trying to look up answers.
- Share fun facts about one of the animals to spark curiosity.

Extension Activities

- Students write a short paragraph comparing two animals and their different survival strategies.
- Create a class display of Antarctic animals with written adaptation summaries.
- Have learners research an additional Antarctic species and present its adaptations to the class.
