Teacher's Guide:

- **Differentiation:** Allow emerging learners to work in pairs and discuss meanings before choosing answers. Challenge advanced students to write original sentences using each antonym they select.
- **Engagement Tip:** Play "Antonym Showdown": read a sentence aloud and have students stand if they know the correct opposite.
- **Extension Idea:** After the quiz, ask students to group antonym pairs by category (feelings, temperature, direction, etc.) to deepen understanding.
- **Cross-Grade Adaptation:** For older students, include academic vocabulary (e.g., "expand" ↔ "contract," "praise" ↔ "criticize") to strengthen language precision and context skills.
