Teacher's Guide:

- **Differentiation:** Offer sentence starters for emerging writers (e.g., "Even though..." or "While one is..."). For advanced students, encourage the use of figurative language to express contrast creatively.
- **Engagement Tip:** Turn it into a "Sentence Swap": students trade papers and highlight how each antonym pair is contrasted effectively.
- **Extension Idea:** Have students choose one of their sentences and expand it into a short paragraph or dialogue that deepens the contrast.
- **Cross-Grade Adaptation:** For upper grades, introduce abstract or academic antonyms (e.g., "justice / corruption," "progress / decline") to promote higher-order thinking and contextual understanding.
