| 5. deep   | 10. old  |

### Teacher's Guide:

- **Differentiation:** Provide a word bank for younger learners or allow older students to brainstorm antonyms independently.
- **Engagement Tip:** Encourage students to act out each pair of opposites (e.g., "quiet" vs. "noisy") for kinesthetic learning.
- **Extension Idea:** Have students create their own sentence pairs using antonyms from the worksheet and share with a partner.
- **Cross-Grade Adaptation:** For upper grades, incorporate abstract antonyms (e.g., "generous" ↔ "stingy," "brave" ↔ "fearful") to build deeper vocabulary connections.
