

Name _____

Arctic Vocabulary Answer Key

- | | |
|---------------------|------------------|
| 1. Sea ice - D | 5. Plankton - G |
| 2. Blubber - B | 6. Iceberg - A |
| 3. Habitat - F | 7. Migration - C |
| 4. Arctic Ocean - E | 8. Tusk - H |

Teacher's Guide

- Build vocabulary knowledge related to Arctic environments.
- Reinforce key terms needed to understand ocean geography.
- Support grades 3 to 5 in matching definitions using context and prior knowledge.

Differentiation Tips

- For students needing support, review each word aloud and provide simple examples.
- Provide picture examples for visual learners.
- Allow advanced learners to create a short glossary using the vocabulary words in full sentences.

Engagement Ideas

- Begin class with a quick guessing game where students predict meanings of the new words.
- Create a vocabulary wall with each word and a student drawn image.
- Use a map or globe to visually connect the words to the Arctic region.

Extension Activities

- Students write a short paragraph using at least five vocabulary words correctly.
- Invite students to research one vocabulary term further and present a fun fact.
- Let students design a mini quiz using three new Arctic words they discover in books or videos.
