Teacher's Guide

Purpose: Supports students in identifying Asian countries using key cultural and physical clues, strengthening geographic reasoning and recall.

Teaching Tips

- Review a map of Asia before starting to build familiarity with country locations.
- Encourage students to underline clues that point to famous features such as rivers, landforms, or landmarks.
- Discuss why each clue matches the correct country to reinforce understanding.

Differentiation Ideas

- Provide a reduced list of possible countries for students who need extra support.
- Challenge advanced learners to create an additional clue for one of the countries.
- Allow English learners to sketch a small symbol next to each clue to support comprehension.

Engagement Ideas

- Turn the clues into a classroom guessing game where students raise their hands to share answers.
- Let students work in pairs to talk through each clue before writing their responses.
