

Name _____

Asian Connections

Directions: Answer the questions in complete sentences. Use what you know about continents, borders, and physical geography.

1. How does Asia connect to Europe? Explain which physical features or regions mark the boundary between the two continents.

2. How is Asia connected to Africa? Describe how the land connection near the Suez area links the continents.

3. How does the Pacific Ocean help form Asia's eastern boundary? Explain how coastlines and surrounding seas shape Asia's connection to the Pacific.

4. Why is it sometimes difficult to draw exact continent borders for Asia? Give one reason involving geography, culture, or history.

5. Choose one of Asia's continental connections and explain why it is important for travel or trade.
