

Name _____

Asian Landforms Answer Key

1. Himalayas
2. Gobi Desert
3. Yangtze River
4. Mount Fuji
5. Dead Sea
6. Arabian Desert
7. Tigris River
8. Tibetan Plateau

Teacher's Guide

Purpose: Students practice identifying major Asian landforms and apply their understanding through contextual fill in the blanks.

Teaching Tips

- Read each sentence aloud and ask students what clues help identify the correct landform.
- Discuss unfamiliar vocabulary such as elevation, terrain, or civilization before students begin.
- Encourage students to refer to classroom maps to visualize each landform.

Differentiation Ideas

- Provide a shortened word bank for students who need fewer choices.
- Challenge advanced students to add one more original sentence using a landform not listed.
- Allow English learners to sketch simple icons beside each word in the bank to reinforce meaning.

Engagement Ideas

- Let students choose one landform and create a quick travel style fact card.
- Have students work with partners to explain why each landform is important to the regions around it.
