Teacher's Guide:

- **Differentiation Tips:** For students who need support, read each phrase and situation aloud and discuss key words that give context clues. Provide visual cards or picture cues of each situation to assist comprehension.
- **Engagement Strategies:** Let students act out each situation using role-play to practice polite help-seeking tone and body language. Rotate roles so everyone practices both asking and helping.
- **Extension Ideas:** Encourage students to write one new situation of their own and a matching polite phrase. Create a classroom "Help Wall" where students can post polite ways to ask for help in everyday school scenarios.
