Teacher's Guide

- **Skill Focus:** Helps students recognize how prepositions (**at**, **in**, **on**) form idiomatic expressions that cannot be understood by literal meaning.
- **Differentiation Tips:**
 - For struggling learners, review each preposition's basic meaning before discussing idioms.
 - Provide example sentences for each idiom so students can infer meanings through context.
- **Engagement Ideas:**
 - Play a "Preposition Idiom Bingo" game using these idioms as squares.
 - Have students act out or draw an idiom to let others guess which one it is.
- **Extension Activities:**
 - Ask students to write original sentences or short stories using at least five of the idioms correctly.
 - Encourage advanced learners to research and share additional idioms that use **at**, **in**, or **on** for a mini-poster or presentation.
