### Teacher's Guide

- Ideal for grades 6 to 8, this activity builds recognition of key Atlantic Ocean features through concise identification practice.
- Review pronunciation and meaning of each feature before students begin for stronger comprehension.

### Differentiation Tips

- Provide a short word bank for students who need added support.
- Offer simple illustrations or map references for visual learners.
- Challenge advanced students to add one additional feature and write their own description for it.

### Engagement Ideas

- Display a world or ocean floor map and locate each feature together as a class.
- Encourage small group discussions where students explain how they identified each feature.

### Extension Activities

- Have students research one Atlantic feature and write a short paragraph explaining its importance.
- Ask students to create a simple diagram of the ocean floor labeling at least three features from the worksheet.
