Teacher's Guide

- Appropriate for grades 3 to 8, supporting vocabulary development and foundational ocean geography skills.
- Review unfamiliar terms before students begin the activity to build confidence.

Differentiation Tips

- Provide visual supports or simple diagrams for terms like coastline or continental shelf.
- Pair students who need help with peers who can explain the meanings in their own words.
- Offer a challenge by having advanced learners write a new definition for one key term not listed.

Engagement Ideas

- Begin with a class brainstorm listing what students already know about the Atlantic Ocean.
- Encourage students to act out terms like currents or tides to reinforce understanding.

Extension Activities

- Ask students to choose one term and write a short paragraph explaining why it is important to the Atlantic Ocean.
- Invite students to draw a simple labeled diagram that includes three or more of the listed terms.
