Understanding Nuanced Purposes

Directions: Read each passage and determine the **author's primary purpose**: to **Explain**, **Describe**, or **Express Feelings**. Write your answer on the line provided.

1. When water reaches 100 degrees Celsius, it begins to boil. This means the molecules move so quickly that they turn into gas and rise as steam. This process is part of what scientists call a "phase change," and it's common in daily life—from making tea to running a power plant.

Author's Purpose: _____

2. The forest was still. Morning light streamed through the treetops, painting the leaves in hues of gold and green. A breeze whispered through the branches, and the scent of damp earth and pine filled the air.

Author's Purpose: _____

3. Sometimes I wonder if I made the right decision moving away from home. I miss my parents, the smell of breakfast in the morning, and the quiet evenings on the porch. But I also know that growing means stepping into the unknown, even when it's hard.

Author's Purpose: _____

4. To make a simple bird feeder, start by covering a toilet paper roll with peanut butter. Then, roll it in birdseed until it's completely coated. Slide it onto a branch or tie it with string, and you'll soon have feathered friends visiting your yard!

Author's Purpose: _____

5. My grandmother's house always felt magical. Her walls were lined with books, and the air smelled like cinnamon and old paper. Every time I visited, I'd curl up in the big armchair while she read stories to me in her soft voice.

Author's Purpose: _____
