

Name _____

Balance Trail Answer Key

1. \$1,875.00
2. \$1,790.65
3. \$1,690.65
4. \$1,840.65
5. \$1,768.25
6. \$1,760.25
7. \$2,385.25
8. \$2,338.50
9. \$2,138.50
10. \$2,081.00

Teacher's Guide

- Quick implementation: Remind students that deposits increase the balance and payments, withdrawals, fees, and transfers out decrease it. Have students work from top to bottom.
- Differentiation: Allow students who need support to mark each transaction with a plus or minus sign before calculating.
- Engagement: Ask students to predict whether the balance will rise or fall before calculating each new balance.
- Extension: Have students calculate the total money added, total money removed, and confirm that these totals produce the final balance.
