

Name _____

Pets In The Park Answer Key

Completed bars should reach these heights:

Dogs: 8

Cats: 5

Birds: 7

Rabbits: 3

Turtles: 4

Teacher's Guide

- Have students read the title, category names, and scale before drawing.
- Ask students to find each number in the data set and draw that category's bar to the matching height.
- For extra support, have students place a small mark at the correct height before completing each bar.
- For a challenge, ask students to identify the tallest and shortest bars after completing the graph.
- Increase engagement by letting students shade or pattern each completed bar.
- Extend the activity by having students add one new pet category and choose a value from 1 to 8.
