

Name _____

Graph Inspector Answer Key

1. E
2. D
3. F
4. G
5. A
6. B
7. C
8. H

Teacher's Guide

- Review the graph from top to bottom and point out each major feature before students begin.
- Have students match features they recognize first, then use elimination for the remaining items.
- For extra support, read each description aloud and let students point to that part of the graph.
- For a challenge, cover the Graph Parts list and ask students to name each feature independently.
- Increase engagement by having students act as "graph detectives" and find each feature as it is called out.
- Extend the activity by having students label the same eight parts on a different classroom bar graph.
