Teacher's Guide

- Begin by reminding students that beginning blends include two consonants that keep both sounds, such as br, cl, tr, st, and gr.
- Provide support by reading each sentence aloud and asking students which word makes sense and starts with a blend.
- For students who need more challenge, ask them to create a new sentence using two different blend words from the box.
- Add engagement by letting students act out one of their completed sentences or illustrate it to reinforce comprehension and vocabulary.
