### Teacher's Guide

- Review beginning blends such as cl, br, st, tr, and cr before students begin. Model how blends keep both consonant sounds.
- Support developing readers by reading the sentences aloud and asking which choice makes sense and starts with a blend.
- Challenge advanced students by having them write their own cloze sentence with three blend choices and swap with a partner to solve.
- Encourage engagement by letting students illustrate one of the completed sentences or highlight all blend words in a different color.
