Teacher's Guide

- **Differentiation:** If students need support, read the word bank aloud and stretch the ending sounds together before sorting. For students who are ready, have them add one more word to each family orally.
- **Engagement:** Turn it into a quick movement activity. Say a word and have students point to the family it belongs to before writing.
- **Extension:** Students choose one word family and write a short list of three rhyming words, then circle their favorite and draw a small picture to match.
