

Name \_\_\_\_\_

## Two Versions Write-Up

**Directions:** Write two short versions (about five sentences each) of the same paragraph describing a scene at school. In the **first version**, use a conversational tone that includes **in back of** naturally. In the **second version**, rewrite the same paragraph in a formal, academic tone using **behind** instead. After writing both, explain in two sentences which version would fit better in a school essay and why.

**Prompt:** Describe what happens near the sports field after class ends. Mention what or who is located in back of or behind the field, and how students use that space.
