Teacher's Guide

- Review the five major **bossy r patterns** before students begin: ar, or, er, ir, ur.
- Provide a mini chart showing example words for each pattern to support students who need extra visual reinforcement.
- Encourage students to read each word aloud. Hearing the r-controlled sound often helps them identify which words belong.
- Extension idea: Have students rewrite each row using only bossy r words or create a new row of their own with one oddball word.
