

Name _____

Brown V. Board of Education - Quote Interpretation Answer Key

Question 1 (Warren's quote):

This quote means that separating students by race always creates inequality, even if the schools appear the same. The Court used strong, direct language to send a clear message that segregation is not just unfair — it's unconstitutional and deeply harmful.

Question 2 (Marshall's quote):

Marshall is saying that while court decisions can change laws, they can't change hearts or create unity. It's up to individuals and communities to make society more equal and inclusive. The quote encourages personal responsibility and ongoing effort beyond legal victories.

Question 3 (Historian's quote):

This quote shows that *Brown* was a major milestone, but the struggle for school equality is still ongoing. Many schools today are still divided by race and income. Full equality hasn't been reached yet, and progress must continue.
