6. \$60.00.
7. \$8.00 monthly fee.
8. \$1.26.
9. \$850.00.
10. \$96.42.

Teacher's Guide

- Quick implementation: Give students 8-10 minutes to scan the statement and answer all questions. Encourage them to locate information rather than calculate unless needed.
- Differentiation: Highlight the date, transaction, deposit, and withdrawal columns for students who need extra support.
- Engagement: Have students treat each question as a clue and see how many statement details they can locate accurately within a set time.
- Extension: Ask students to verify the ending balance using the beginning balance, total deposits and interest, and total withdrawals and fees.
