Teacher's Guide

- Encourage students to read each set of choices aloud, listening carefully for short vowel sounds to identify the real CVC match.
- For students who need extra support, cover two of the choices and reveal them one at a time to reduce overwhelm.
- Provide mini whiteboards or letter tiles so students can build the word they think fits before writing it.
- Extension ideas: Students can illustrate one of the completed sentences, create their own fill-in sentences using CVC words, or sort the answer words into word families to reinforce spelling patterns.
