### Teacher's Guide

- Encourage students to say each word aloud and focus on the middle vowel sound, which determines the correct column.
- For students who need more support, have them stretch the vowel sound or tap each phoneme to hear the difference clearly.
- Provide manipulatives like vowel cards or colored markers to help students visually distinguish the five vowel categories.
- Extension ideas include having students create additional CVC words for each vowel column, sort picture cards instead of written words, or write a simple sentence using one word from each vowel group.
