### Teacher's Guide

- **Goal:** Build **rhyming** skill by matching the same ending sound in simple **CVC** words.
- **How to teach:** Say the first word aloud, then have students repeat it and listen for the ending sound before choosing.
- **Support:** Read the choices aloud and have students point to the word that sounds the same at the end.
- **Challenge:** Ask students to say a second rhyming word for each target (example: cat, hat, bat).
- **Engagement:** Do a quick "rhyme check" chant: "Same last sound? Yes or no?" before coloring.
- **Extension:** After coloring, students circle the ending letters that match (example: cat and hat both end with at).
