### Teacher's Guide

- **Skill focus:** Students make **rhyming pairs** by matching the same ending sound in **CVC** words.
- **How to use:** Say the first word aloud, then have students repeat it and listen for the ending sound before choosing.
- **Differentiation:**
  - Support: Read the Word Bank aloud and underline the ending chunk (example: log, og).
  - Challenge: After finishing, students write one more rhyming word for any three items.
- **Engagement:** Do a quick "echo read" routine; you say the first word, students echo, then whisper the rhyme choice.
- **Extension:** Students circle the matching ending letters in each completed pair (example: log and fog).
