### Teacher's Guide

- Encourage students to say both the CVC and CVCe words aloud to hear how the silent e changes the vowel sound.
- Provide visual supports for emerging readers, such as picture cards of the final CVCe words.
- For students needing more support, model the first problem and highlight the vowel change with **short** and **long** labels.
- For an extension, ask students to create sentences using their new CVCe words or come up with their own CVC words to transform.
