### Teacher's Guide

- This worksheet helps students apply **CVVC vowel team knowledge** in meaningful sentence contexts, strengthening decoding plus vocabulary understanding.
- Encourage students to read both choices aloud before picking the correct one. This reinforces the vowel team sound and the sentence meaning.
- For differentiation, provide a review mini chart of common vowel teams (ai, ea, ee, oa, oe). Support emerging readers with partner reading.
- For engagement, let students create one of their own sentence pairs at the end and swap with a partner.
- For extension, ask students to sort the chosen words by vowel team and use at least three of them in a short paragraph.
