Teacher's Guide

- This activity helps students apply **CVVC vowel team recognition** within connected text while using context clues to select the correct word.
- Preview the word bank together and pronounce each vowel team clearly before students begin the cloze paragraph.
- For differentiation, allow emerging readers to match words by first identifying beginning sounds or picture drawing next to each word.
- For engagement, let students read the completed paragraph aloud dramatically or illustrate one scene from the story.
- For extension, challenge students to write a new sentence using at least two CVVC words from the word bank or create their own short cloze paragraph for a partner.
