4. The sun began to glow through the trees.

Teacher's Guide

- This activity helps students identify **CVVC vowel teams** in connected text while also supporting reading comprehension.
- Before reading, review common vowel teams and provide a few examples to activate prior knowledge.
- For differentiation, allow emerging readers to underline words as they listen to the paragraph read aloud. Confident readers can hunt independently.
- For engagement, challenge students to compare how many CVVC words they found and discuss any they missed.
- For extension, have students write two new sentences using at least three CVVC words from the paragraph or their own generated list.
