

## Buzzing For Details Answer Key

Matches:

- 1 → B. Bees produce useful products beyond honey.
- 2 → A. Bees are vital to human food and health.
- 3 → C. Bees face serious threats that could harm the environment.
- 4 → A. Bees are vital to human food and health.
- 5 → A. Bees are vital to human food and health.

### Teacher Notes / Guide

- Encourage students to see that **details must tie back to the “big picture” of a main idea.**
- Some main ideas will have more supporting details than others (e.g., A has three). This shows how texts often spend more time on one idea than another.
- Discuss with students how losing bees could connect back to *all three main ideas*: food supply, product availability, and environmental balance.
