### Teacher's Guide

- Review the **ch** blend before beginning. Say the sound clearly and give two or three sample real ch words.
- Encourage students to read each word aloud. If it does not sound like a real English word they know, they should cross it out.
- For students who need extra support, provide a short real-word reference list on the board so they can compare sounds.
- **Extension ideas:**
  - Have students make up one silly ch word and one real ch word of their own.
  - Let students sort the words into categories like people, objects or actions when possible.
